PROFESSIONAL EXPERIENCE

IT Technical Lead | Ajial Water - Ajial Mowafaq Industries Co.

Riyadh, Saudi Arabia | Mar 2025 - Present

- Lead senior IT support and infrastructure operations across factory, warehouse, head office, and accommodation sites, ensuring stable daily business operations.
- Provide L1/L2 support and escalation handling for Microsoft 365, ERPNext, desktops, laptops, printers, network connectivity, user access, CCTV, and business applications.
- Administer Microsoft 365 including Exchange Online, Outlook, Entra ID users, mailbox access, password resets, security settings, and user lifecycle management.
- Administer ERPNext users, roles, permissions, workflows, reports, print formats, automation, troubleshooting, and end-user support across business departments.
- Troubleshoot LAN/WAN, VPN, routing/switching, Wi-Fi, IP camera, and connectivity incidents across multiple facilities to maintain service continuity.
- Manage IT assets, procurement, allocation, maintenance, lifecycle tracking, and vendor coordination for support and infrastructure projects.
- Successfully delivered 7 CCTV and network deployment projects with 151+ IP cameras across factory, warehouse, accommodation, and head office facilities.
- Created IT SOPs, security controls, preventive maintenance routines, and support documentation to improve reliability and reduce recurring support issues.

ICT Technical Support | AFMCO Ltd - Abdullah Fahad Al Mutairi Co.

Riyadh, Saudi Arabia | Jan 2023 - Feb 2025

- Managed IT infrastructure, cloud-hosted business systems, servers, network services, backups, and user support operations for daily business continuity.
- Administered ERPNext users, roles, permissions, workflows, reports, print formats, automation, troubleshooting, and cross-department end-user support.
- Administered VPS cloud environments on DigitalOcean and Contabo, including Linux server maintenance, access control, monitoring, and backups.
- Resolved hardware, software, email, network connectivity, business application, and user account issues through structured troubleshooting and escalation.
- Created IT documentation, SOPs, troubleshooting guides, and operational processes to improve consistency, support quality, and knowledge sharing.

IT Support | Ballon Supermarket (BSM)

Riyadh, Saudi Arabia | Mar 2022 - Jan 2023

- Supported retail IT operations including ERP, POS systems, desktops, printers, network devices, and user troubleshooting requests.
- Installed, configured, upgraded, and maintained hardware, software, peripherals, and network-connected devices.
- Resolved system, application, connectivity, and device issues to maintain business continuity and reduce downtime.
- Performed preventive maintenance, updates, basic security checks, and operational support for store IT systems.

IT Support | Mosfer Bin Haider Contracting Co.

Dammam, Saudi Arabia | Jul 2018 - Feb 2022

- Provided IT support for users, desktops, servers, networks, enterprise applications, backups, and system performance issues.
- Supported user onboarding, account setup, access requests, software installation, and business application troubleshooting.
- Monitored systems and network performance, diagnosed technical issues, and resolved incidents to keep operations stable.
- Conducted end-user training and assisted teams with hardware, software, email, and connectivity support.
